+HUMANIC®

Rx 706

BATTERY OPERATED
HANDHELD | PORTABLE X - RAY

Main Feature

Comprehensive Clinical Scope

All parts of the human body

Low dose radiation exposure

Superior X-ray Imaging

LED Brightness Lamp and Laser Cross beam

Targets the exposure area accurately

Specifications of the Device

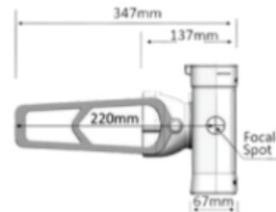

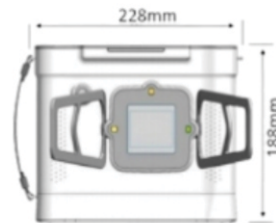

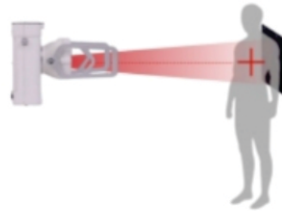

- Tube Voltage (kV) 40 - 70kV
- Tube Current (mA) 2 - 6mA
- Focal Spot: 0.4mm
- Battery DC: 22.2 VDC, 2200mAh
- Exposure Time: 0.03 - 2.0sec
- Dimensions: W 228 x D 137 x H 188mm
- Output Power: 420w
- Weight Under: 3.5kg
- Distance Sensor: 30cm - 180cm

Operating Modes - S, L

18 Anatomically Programmed Radiography (APR)

Wired / Wireless Exposure

Powered By Lithium-Ion Polymer Battery

Can shoot up to 150 images* on a full charge.

**The number of shots depends on the exposure conditions.*

Portable X-Ray System

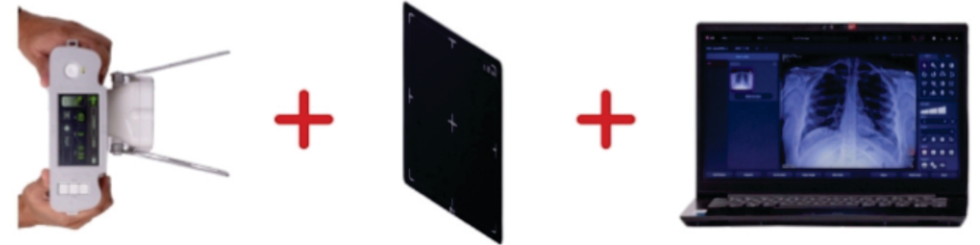

Portable X-Ray Machines & Digital X-Ray Detector

Flat Panel Detector With a-Si TFT or Oxide TFT

Low Dose | Portable | Durable | Light Weight

IP68: Water Resistance & Dust-Tight

Sizes (Optional) : 17"x17" / 14"x17" / 10"x12"

Application

- | | |
|------------------|----------------------|
| Emergency Room | Operating Room |
| General Medicine | Respiratory Medicine |
| Nursing Home | Intensive Care Unit |
| Pediatric Care | Medical Camp |
| Orthopedics | Mobile Medical Unit |

Accessories

INCLUSIONS WITH PORTABLE X-RAY MACHINE:

Wireless Remote Switch, Carry Case, AC/DC Adapter

OPTIONAL:

Tripod Stand For Portable X-Ray, Tripod Stand For Bedded Patients, Tripod Stand For Flat Panel Detector, Wired Hand Switch, Flat Panel Detector, Laptop Workstation.
